

„VU CYBERTHON 2022“ rules

- **You must be at least 14 years old to participate.**
- All challenges must be solved individually, without any help from others. However, participants are allowed to use any other source of information. It is prohibited to share answers among other registered participants.
- **Participants allowed to play in teams. Each team must use single registered account. If team wins, prize will be sent to a single team representative.**
- Participants have 24 hours to solve challenges.
- Challenges may be solved in any order. While doing a challenge, it is possible to return to main menu to select other challenge.
- Challenge is considered to be solved, when correct answer is entered into the answer field. If the answer is incorrect, participant will be informed about it.
- 3 participants that will earn the most points, will be announced as the winners of “VU CYBERTHON 2022”. If contestants earn an even number of points, participant, who earned the points most quickly, will come out on top.
- Winners of “VU CYBERTHON 2022” will be announced on the official VU CYBERTHON website <https://cyberthon.lt/> and Facebook page <https://facebook.com/vucyberthon> not later than 7 PM (GMT+2) of February 18.
- Winners will be contacted individually via email, provided during registration. In order to receive prize, winner will be asked to provide his personal details to organizers, required for money transfer.
